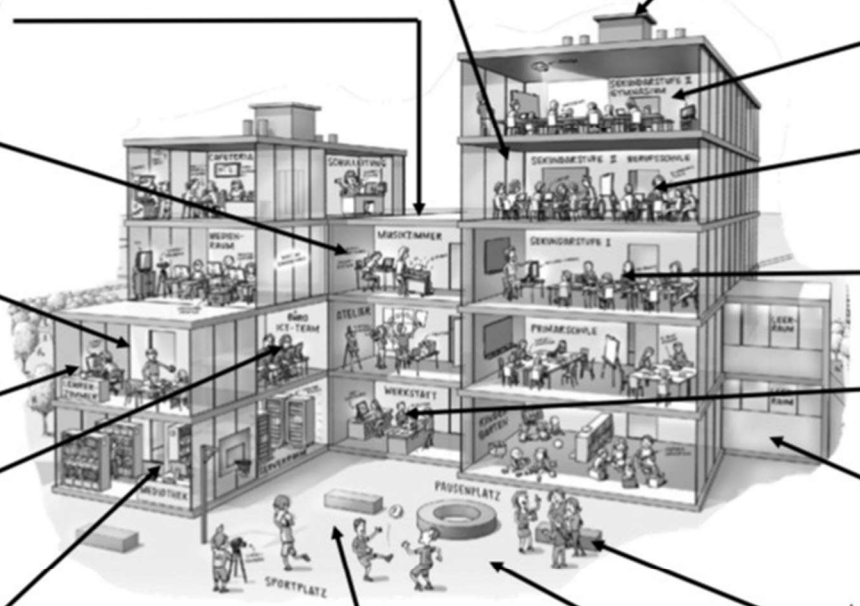
What could be done to improve the LGBT+ situation in schools?



Increased thematisation of the different types of sexuality and STDs in bio lessons

Colourful school project: pupils get to decorate school in creative pro LGBT+ ways

Extra toilets for the 3rd gender

Increased addressing of LGBT+ history and homophobia in history

Music and art by LGBT+ artists as material for the corresponding subjects

Addressing topics such as homosexuality, intersexuality and transsexuality in biology lessons on a scientific level, possibly with homosexuality in the animal kingdom and an extra lesson on the topic.

Special training for teachers on racism and homophobia

Reading and analysis of, for example, books by homosexual artists

Suggestion for art/craft lessons: design a big poster, sign, ... explaining what the abbreviation "LGBT+" means and more about the topic.

A clear sign against homophobia with, for example, LGBT+ flags in the assembly hall

Changing rooms for the 3rd gender in sports lessons

Teaching in primary school that homosexuality is normal

In general: Give students space and time for discussions on the LGBT+ issue.

Extra section in the school library on the LGBT+ topic

Project Day on Christopher Street Day

Increased teacher presence against homophobic bullying in the schoolyard
